A-kassan Vision

Arbetslöshetskassan Vision is an unemployment fund for people employed in Sweden doing administrative work in a local authority, county council, company or trust in the area of a local authority. It also provides unemployment insurance for employees working in companies in the area of education, health care, Church of Sweden, other religious bodies or ecumenical organizations. Companies in the area of education and health care can be privately owned.

Akademikernas a-kassa

The unemployment insurance fund for university graduates. Our members have either 180 university credits or are students planning to achieve 150 university credits; foreign educations with corresponding points do also qualify for membership. We insure both employees and self- employees.

We insure managers, specialists or qualified administrators which positions are normally held by someone with an academic education, and naval officers, employed military personnel, foreign Ministry staff, dental hygienists, flight technicians, principals, qualified teachers, pilot (boats), church musicians, officials in transport operations and senior officials at PostNord.

Alfa-kassan

Alfa-kassan is currently the only unemployment insurance fund that is not tied to a particular organization or trades union, or is specifically aimed at a certain profession or industry. Alfa-kassan welcomes everybody equally, be they unemployed, employed or self-employed.

By being a complement to those unemployment insurance funds with organizational interests, Alfa-kassan works hard to ensure that everyone in the employment market has access to income-related unemployment insurance.

Alfa-kassan administers both the general basic insurance and the voluntary income-based insurance schemes. In addition to this, Alfa-kassan offers payment of the basic unemployment benefit, on behalf of the government, to those who are not members of any unemployment insurance fund.

Byggnads a-kassa

We organize workers in the construction industry and paint profession:

- Employees working in civil engineering.
- Employees working with concrete construction.
- Employees in the glass working industry.
